NICOSIA OLD TOWN AREA

Cyprus' diminutive size is greatly disproportionate to the wealth of treasures that you will discover during your visit to its capital. Dating back to the Bronze Age, Nicosia is perhaps the only area of Cyprus that has been continuously inhabited since the Chalcolithic Era (3000 B.C until present day), with its first inhabitants settling in the fertile Mesaoria Valley.

LIMASSOL CITY

Limassol is the second largest city of Cyprus. Located on the southern coast, Limassol stretches around westward to the Paphos district, bordering with the district of Larnaca on the east and with Nicosia on the north.

In addition to the recognized popularity as a tourism destination, Limassol is also an administrative and business centre, a port, a resort, the centre of the wine industry and home to many archeological sites.

Gracefully blending old with new continues, as across the seafront one can appreciate the cosmopolitan side of Limassol with its contemporary business structures and modern apartment buildings while only several kilometers away one can find charming areas with cobblestone streets, quaint buildings with overhanging terraces under which there are a profusion of small shops, restaurants and cafes.
